

## Homemade Hot Chocolate Mix

The kids go through hot chocolate like crazy so it was time to try to make a bulk batch. No extra fillers! Just pure ingredients. It took only several tries using teaspoon portions to get the right mix.

All ingredients below are CUP proportions for easy scaling up.

- 3 powdered sugar - sifted
- 2 dry milk
- 2 cocoa powder
- 1 heavy cream powder (or creamer)
- 1/4 powdered pure vanilla

I think the cream and the vanilla powder are the key to keeping this creamy and delicious! I added these dehydrated mini marshmallows that I found at an Amish store to my batch. Perfect!

Short term, one batch fit in 2-quart sized jars for the pantry. Two to three heaping spoonful's, add hot water and marshmallows.
