

A FEW UNIQUE PLUS TRADITIONAL USES FOR COLLOIDAL SILVER

When you control a source of pennies-per-gallon make-it-yourself high concentration Colloidal Silver you can use it for hundreds of health improvement applications.

A few are suggested here.

Add to suspected drinking water when traveling or camping.

Silver-sprayed burns heal rapidly without scarring.

Safely sterilize anything from toothbrushes to surgical instruments.

Use topically on cuts, wounds, abrasions, rashes, sunburn, razor nicks and bandages.

Spray on garbage to prevent decay odors.

Mist kitchen sponges, towels, cutting boards to eliminate E. Coli and salmonella bacteria to prevent food poisoning, gastrointestinal inflammation, and genital tract infections.

Use like peroxide on zits and acne.

Add to juices and milk to prevent spoiling, fermenting, deteriorating, clabbering or curdling.

Spray in shoes, between toes, between legs to stop most skin itch, athlete's foot, fungi, jock itch.

Diminish dandruff, psoriasis, skin rashes, etc.

Add to bath water, gargle, douches, colon irrigation, nasal spray and dental water-pic solutions.

Cuts downtime dramatically from colds, flu, pneumonia, staph, strep, respiratory infections and rhino viruses.

Skin itch, eye and ear infections, warts and some moles vanish (put on Band-Aid and wear overnight each night until gone).

Spray on body after bathing.

Use with Q-tips on fingernail, toenail, and ear fungi.

Neutralize tooth decay and bad breath.

Silver stops halitosis by eliminating bacteria deep in throat and on back of tongue.

Unlike pharmaceutical antibiotics, Colloidal Silver never permits strain-resistant pathogens to evolve.

Put a on Band-Aids and bandages to shorten healing times.

Health professionals might consider IV and IM injections. Tumor and polyp shrinking is reported when masses are injected directly

(when silver is added to sterile physiological saline or Ringer's Solution that contains 9000 ppm sodium chloride).

Toothaches, mouth sores, bacterial irritations are diminished.

Soak dentures.

Spray refrigerator, freezer and food storage bin interiors.

Stop mildew and wood rot.

Mix in postage stamp, envelope, and tape moistening wells, paint and paste pots to prevent bacterial growth, odors, spoiling or souring.

Add to water based paints, wallpaper paste, dishwater, cleaning and mopping solutions, etc.

Spray pet bedding and let dry.

Spray on top of contents of opened jam, jelly, and condiment containers and inside lids before replacing.

Mix a little in pet water, birdbaths, cut flower vases. Always add to swamp cooler water.

Spray air conditioner filters after cleaning.

Swab air ducts and vents to prevent breeding sites for germs.

Use routinely in laundry final rinse water and always before packing away seasonal clothes.

Damp clothes or towels and washcloths will not sour or mildew.

Eliminate unwanted microorganisms in planter soils and hydroponics systems.

Spray plant foliage to stop fungi, molds, rot, and most plant diseases.

Treat pools, fountains, humidifiers, Jacuzzis, hot tubs, baths, dishwashers, re-circulating cooling tower water, gymnasium foot dips, and bath and shower mats. (actually they sell CS-copper combinations for pools)

Spray inside shoes, watch bands and gloves and under fingernails periodically.

Treat shower stalls, tubs, fonts, animal watering troughs, shavers to avoid trading germs.

Rinse fruit and vegetables before storing or using.

Add to human and animal shampoos and they become disinfectants.

Prevent carpets, drapes and wallpaper from mildewing.

Wipe telephone mouthpieces, pipe stems, headphones, hearing aids, eyeglass frames, hairbrushes, combs, loofas.

Excellent for diapers and diaper rash.
Do toilet seats, bowls, tile floors, sinks, urinals, door knobs.
Kills persistent odors.
Rinse invalid's pillowcases, sheets, towels and bedclothes.
There are literally thousands of other essential uses for this ridiculously inexpensive (if you make your own), odorless, nearly tasteless and colorless, totally benign and easily produced, powerful, non-toxic disinfectant and healing agent.

For animals to prevent picking up virus, fungus and bacteria. (I use 1/4 to 1/2 tsp per quart of water every day) if the dog is under stress I increase the dose.

You'll find that a spray or misting bottle of Colloidal Silver solution may be the most useful health enhancement tool in your environment.

You can use a Nebulizer for lung infections, bronchitis, soar throat (used in combination with oral dosage)

Dosage:

Some people, when first ingesting Colloidal Silver, have the experience that is called the Herxheimer effect.

This experience is a result of the silver very efficiently killing off too many pathogens too fast for the body to dispose of through the normal eliminative organs.

This forces the body to utilize the secondary eliminative organs: the lungs, sinuses and skin.

Sometimes a new Colloidal Silver user who drinks a large quantity for the first time will experience what feels like a cold or the flu (or diarrhea). This can be stopped by cutting back on the dosage (or completely abstaining for a day or so), or prevented by starting with a small dose (1/4 to 1/2 teaspoon twice a day) and gradually increasing the dosage. Some people even find they need to start off at first with just a few drops. People who are trying to self-treat a significant health condition (like asthma, or an internal infection) may need to work up to fairly large quantities each day (8 oz to 1 quart per day) before they see an improvement.

There are no known instances of anyone overdosing with Colloidal Silver.

Directions for use: (from <http://www.inspiredmind.com/health/colloidal.html>)

ORAL: 1 teaspoon for 7 days, then 1/2 teaspoon daily

Children: 1/2 the adult dosage.

Chronic cases: 2 teaspoons to 4 ounces as required daily.

For colds or flu symptoms, double or triple the usual dosage for 3 days, then follow the regime.

Optimum dose may require more or less silver depending on the state of the Immune System.

Kinesiology testing or muscle testing is an effective way to determine dosage.

Remember, this is a safe and pure mineral element and you cannot

overdose. There are no known side effects. A few people may feel achy and sluggish on the third or fourth day after they begin taking Colloidal Silver. This is called a "Healing Crisis". When the body is sloughing off huge amounts of toxins at once, the elementary organs can become overloaded. Drink lots of water and the symptoms will lessen rapidly.

EXTERNALLY: Apply directly to cuts, scrapes and open sores. A Q-tip makes a good applicator or put a few drops on a Band-Aid and wear over cuts, sores, scrapes, warts abrasions. Daub directly on skin cancers, eczema or itchy areas, or for acne, mosquito bites or any skin problem.

ATOMIZER / INHALER: For nose / lung problems spray into nose while inhaling.

EYES: Put a few drops in each night before bed. (It's safe even for baby's eyes.)

COLONICS / DOUCHES: Add 2 ounces to pure water.

TO PURIFY WATER: Add one ounce per gallon, shake well, wait six minutes, shake again, wait 6 minutes and drink.

DIGESTIVE AID: Drink two quarts of the above mixture over a days time, especially with meals, to help eliminate fermentation.

NATURAL FOOD PRESERVATIVE: Use in canning at 1/4 tsp. per quart.

FOR PLANTS: For all bacterial, fungal, and viral attacks on plants, simply spray diluted silver on the leaves, and add to soil water. Mix 1 ounce per quart of water.

FOR ANIMALS: Depending on the size of the animal, use a dropper to put the Colloidal Silver down the throat, or just put it in your pet's food or water.
